

MIT How To Speak

by

(IAP 2018)

PATRICK Winston

The guy who taught AI & AI LABS

→ "Ability to speak, to write, quality of ideas"
→ success in life
→ PRACTICE (operational) ordered

→ $Quality = f(K, P, t)$
↓
KNOWLEDGE (Most)
→ talent (least)

→ How to start?

- w/ a joke X
- Promise ✓ (Empowerment)

→ Sampler

- cycle on the subject ~~add~~
- Build a Fence → this is my idea, not that.
- Verbal punctuations :- use as anchors
- Ask a Question & let people ask. question.

$$Quality = f(K, P, t)$$

→ Time Tools

□ Time & place

- time w/ fatigue. (TIAM)
- Light Intensity
- CASED - Place Gauging
- Reasonably Populated

→ Board

↳ Graphics + Presentation + Speed + target
 ↳ don't pocket your hands

→ Props :- Explaining tools

↳ prototypes

Exposing ideas

~
Explaining ideas

→ EMPATHETIC MIRRORING

→ Too Many Slides → Too Many Words ⇒ Horrible presentation
 ↳ Don't Read

→ Fixing Slides

- Be in the image
- Keep Graphics Simple
- Eliminate Clutter

→ No Logos → No title (say the title)

→ Use a font Sample size template
 (35-50)

→ too heavy / dense content

→ Using Laser pointers

↳ Prop + Point - don't wave it

→ HAPAX Legomenon (1 per Overview)

→ Informing vs Inspiring

• — Exhibit Passion —

↳ doing it w/ or in the Promise

• HOW TO THINK

→ Narratives of the theme at hand

• PERSUADING

→ Situate → Practice Actively

→ JOB TALKS

{ → Vision → Done something } → Express in under 5min

→ Problem + Approach

→ We/I need to do

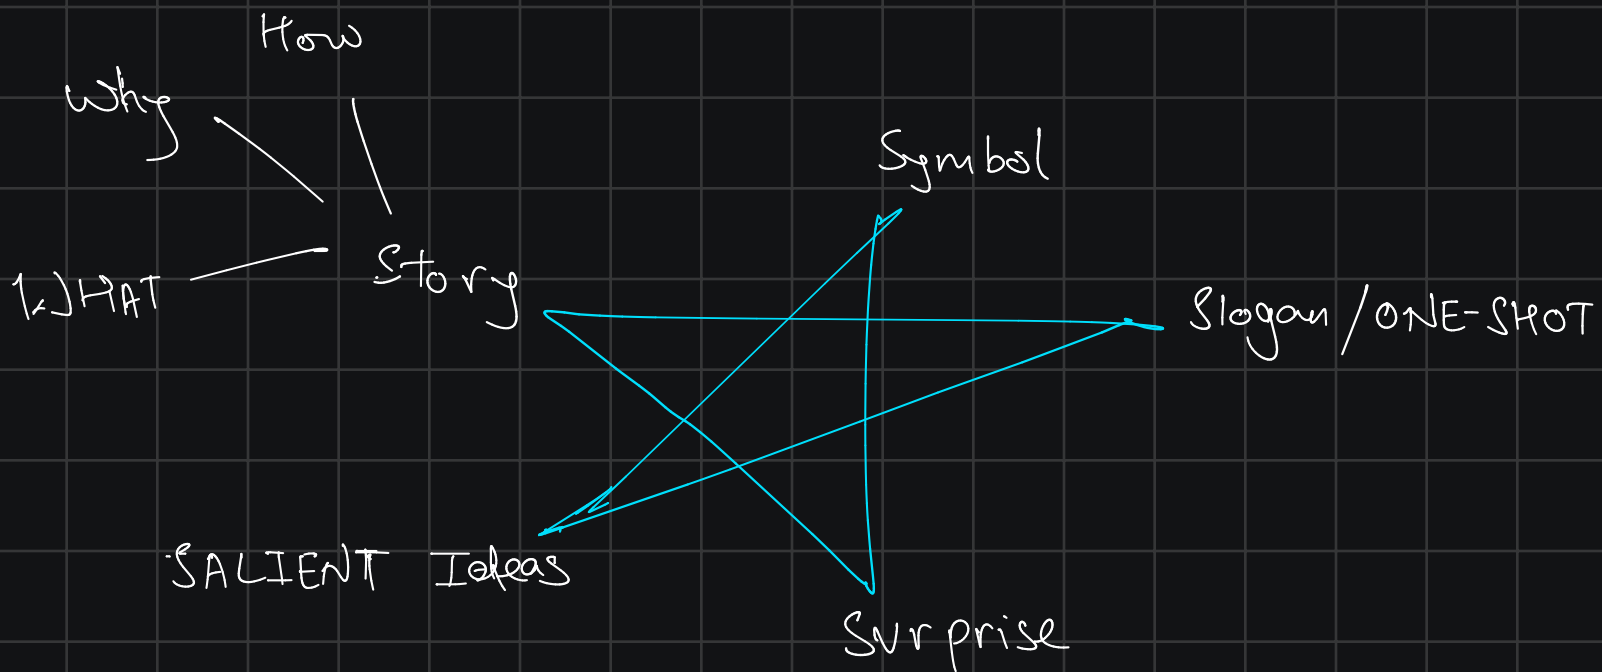

(not all done is okay).

↳ Accomplishment Enumeration.

- GETTING FAMOUS

→ "You Never Get used to being ignored."

→ Winston Star

How to stop?

- Collaborator — 1st Slide x (don't end)
- Contributions slide → Return to Promise

" " ← Tell a joke

→ Don't end w/ "Thank You"
→ ITE MISSA EST

→ Complement the audience / group
